Final Examination, 2020
SE 511: Professional Ethics for Information Systems
Marks: 30 Time: 1 Hour 15 Mins

Professionalism	Excellence	Respect
-----------------	------------	---------

Answer all the questions. The weight of each question is mentioned at the right side. When answering a question, please answer all the subsections of it at once

1. a) What are the common ethical issues for IT user? Explain. 5
 b) Write the supporting event for the ethical practice of IT user. 5

2. a) MIT professor Sherry Turkle has written a book, Alone Together, which is highly critical of social networking. She argues that the manner in which some people frequently communicate online using Facebook, Twitter, and instant messaging is a form of modern madness. Turkle thinks that under the illusion of enabling improved communications, technology is actually isolating us from true human interactions. Others disagree and argue that Facebook, Twitter, and instant messaging have led to more communications, not less. What do you think? Justify your answer. 5
 b) You are 30 minutes into a job interview for your dream job—one where your university education and experience could really be applied. So far everything is going well. Then, the interviewer asks you to write down your Facebook user name and password so she can do further research after the formal interview is over. What would you do? Justify your answer. 5

3. a) The daughter of the firm's CEO is scheduled to participate in a job interview for an entry level position in the IT organization next week. You are a second-year employee in your firm's IT organization who will participate in the interview process. You will be one of three people who will interview her to form an assessment and make a group decision about whether or not she will be offered the position. How do you handle this situation? 5
 b) Briefly describe various types of perpetrators. 5

Best of Luck !!!!!
